### Professional Summary:

---

I am a full stack web developer with a background in teaching chemistry. Recently earned a certificate in full stack development from University of Washington. After long experience in education my new passion is web development. I am proactive in learning new skills and knowledge with core competency in full-stack web development. Life-long dedication to learning and in self development. Quick-learner, organized, collaborative communicator. I look forward to bringing my skills and passion for software development to build user focused applications.

---
